County Commissioner.

JAMES SULLIVAN ANNOUNCES HIMSELF as a candidate for Long Term County Commissioner, subject to the decision of the Republican County Convention.

For Constable.

S. W. UPSON HEREBY ANNOUNCES himself as a candidate for Constable of Reno Township, subject to the decision of the Republican County Convention.

## A STORM AT SEA.

Five Vessels Go to the Bottom.

A LARGE TIN PLATE PLANT.

On American Soil to Use American Tin.

Proceedings of the Iron and Steel Institute.

The President's Trip.

By Associated Press.  
WASHINGTON, Oct. 3.—The details of the President's western trip are arranged, subject to slight changes. The President will leave Washington on Monday morning for Cincinnati, where a short stop will be made Tuesday morning; then proceed to Vincennes, Terre Haute and Danville; then to Galesburg, Ill., reaching there on Wednesday morning to attend the reunion of his brigade, and leave in the evening for Ottumwa, Iowa, where he will spend Thursday at the exposition. That night the President will be taken to Topeka, arriving in the morning and remaining until afternoon, when he will take a train to Kansas City, arriving there two hours later. He will be the guest of his brother, who is a resident of that city, until evening, when he will leave for St. Louis to attend the annual festival of the followers of the "veiled prophet" on Saturday. That night he will go to Indianapolis to spend Sunday. The next morning he will leave for Washington, reaching here on Tuesday morning.

Effect of the New Tariff.

By Associated Press.  
PITTSBURGH, October 3.—One result of the passage of the tariff bill with its tinned plate will be the establishment of an immense tinned plate factory at an early day. A Baltimore company of eastern capitalists, composed principally from Baltimore and New York, have quietly been working on the scheme. The capital stock is \$7,000,000. The company will do business on an enormous scale. The concern will have its own tin mines and reducing plant in the west. About \$5,000,000 will be put into the Baltimore plant itself. It will cover several acres and will be the largest tin plate concern on the globe. Foreign capitalists are to erect a tin plate mill at Duquesne at a cost of \$1,500,000, on the property of John A. Woods. About 600 men will receive employment.

Their Work Concluded.

By Cable and Associated Press.  
NEW YORK, Oct. 3.—The members of the British Iron and Steel Institute this morning listened to the concluding paper of the session on "Aluminum Steel," by R. A. Huddfield of Sheffield. The remainder of the time was devoted to visits to the various electrical works about the city; to Edison's laboratory, Llewellyn Park, N. J., and excursions to various points of interest. The delegates leave for Philadelphia to-morrow.

A New Usher.

By Associated Press.  
WASHINGTON, October 3.—The President has appointed J. B. Turner, of Indiana, as usher at the White House, vice, E. W. White of Indiana.

Five Vessels Lost.

By Cable and Associated Press.  
LONDON, Oct. 3.—A terrific gale prevailed in the North Sea yesterday. Five vessels were foundered.

Bar silver, 113.

## The Slavin-McAniff Case.

By Cable and Associated Press.  
LONDON, Oct. 3.—The hearing in the case of Slavin and McAniff, charged with assaulting each other and committing a breach of the peace, took place to-day in the Lambeth Police Court. The Counsel for the Crown said if the contest between them was declared unlawful, the persons who arranged and abetted the fight will be persecuted.

After hearing the evidence the court reserved its decision for a week.

Free From Disease.

By Cable and Associated Press.  
MONTREAL, October 3.—Robert R. Ford & Co., agents here for the Ross steamship line, to-day received a cable stating that the cattle shipped from this port by the steamer Norse King, which were detained at Dundee, Scotland, on suspicion of being infected with pleuro-pneumonia, have been released, having been declared free from the disease.

A Contested Will.

By Associated Press.  
CHICAGO, October 3.—The will of the late John Kohn, which disposed of an estate of \$3,000,000, much of it to charitable and religious institutions of this city, will be contested, and proceedings will soon be commenced in what will probably be one of the most celebrated cases of its kind on record.

Predicts a Failure of the World's Fair.

By Cable and Associated Press.  
BRUSSELS, Oct. 2.—The *Independence Belge* says the adoption of the McKinley Tariff bill insures the failure of the World's Fair at Chicago, as it will be a needless and hopeless expense for Europeans to send exhibits there.

Still in Progress.

By Cable and Associated Press.  
DUBLIN, Oct. 3.—The hearing in the case against Dillon, O'Brien and other Nationalists, charged with conspiracy, continues at Tipperary. No evidence of moment was adduced.

## LOCAL INTELLIGENCE.

Lost.

Lost, between McKissick's Restaurant and the Opera House Dry Goods store, a pocket book containing \$25 in cash and a check for \$10.00, payable to W. L. Waples. A liberal reward will be paid to the party finding same. Return to the Opera House Dry Goods store.

Card of Thanks.

The Principal, Faculty and pupils of Bishop Whitaker's School for Girls most heartily thank the kind friends who worked so nobly last night to save the school building from destruction. May God bless and reward them.

A Broken Arm.

A short time before going to press this afternoon, it was reported on the street that John McGill, son of the Rev. Mr. McGill, met with a mishap by which he suffered a fracture of one of his arms.

Ladies' Guild.

A regular meeting of the Ladies' Guild will be held to-morrow (Saturday) evening at the residence of Mrs. W. Pinner on Second street. A full attendance is desired.

Favors Dehorning.

A correspondent of the *New England Farmer* takes strong grounds in favor of the dehorning of cattle. He cites several cases in his own experience to prove that the operation takes all the ugliness out of cattle, even bulls being almost as gentle as lambs after having been subjected to the treatment. He thinks the time is not far distant when every calf will be dehorned, and that some years in the future the nature of the animal will be so much changed that the horn will not grow, rendering the operation unnecessary for the cattle of, say, the latter part of the next century.

High Rollers.

The Butte (Mont.) *Inter-Mountain* of the 26th of September says: The largest game of stud poker ever played in Livingston was played in a well-known resort in that city Monday night and yesterday afternoon. When the game broke up early Tuesday morning Doll Cope, the best all-round gambler in Eastern Montana, was \$5,250 ahead of the game, having won \$2,625 of this amount on ace high. At 2 p. m. the four men started in again and after playing a few hours the game broke up with Cope \$17,500 winner.

The Great Spring Medicine—The Blood is the Life.

GENTLEMEN: I have been troubled with bad blood for some years, but recently purchased two bottles of Hubbard's Rheumatic Syrup, which has entirely cured me. As a blood purifier it has no equal, and I also take pleasure in recommending it as a tonic, alterative, and reliable rheumatic remedy. Very truly yours,  
S. E. FERGUSON, Eaton Rapids, Mich.  
This is to certify that we know Mr. Ferguson, and believe the statement made by him to be true. We unhesitatingly recommend this remedy as we believe it to be the greatest family medicine on our shelves.  
WALWORTH & SOUTER,  
Eaton Rapids, Mich.  
Sold by all druggists. Prepared only by the Charles Wright Medicine Company, Detroit, Mich.  
Ask for Fryer's Astringent Cough Balm. Take no other. It is the most pleasant and best cough remedy in the world. (It contains no opium.) Price 75 cents. Sold by Wm. Pfisterer. The original and genuine Astringent preparations bear the fac-simile signature of D. F. FRYER.

## SHOOTING AFFRAY.

Son of the Late Thos. Williams Killed.

STANLEY AND WIFE AT BRUSSELS.

Threatened Strike of London Gas Workers.

Soldiers Held in Readiness to Protect Non-Union Men.

Fatal Bar-Room Affray.

Special to the GAZETTE.  
FRESNO (Cal.), Oct. 3.—Percy Williams of Stockton was shot and instantly killed in the bar-room of the Hughes Hotel at 4:30 this morning by Jack Smith, a hackman. Smith and Williams had been gambling and got into an altercation, when blows were exchanged and it is said Williams drew a revolver, shooting Smith in the elbow. Smith almost simultaneously drew a pistol and shot Williams through the heart and he fell near the bar dead. Smith was placed under arrest and Williams' body was taken in charge by the Coroner. Williams is a brother of Tom H. Williams Jr., a well-known horseman of San Joaquin county. Four shots in all were fired.

At the Coroner's inquest the Deputy Coroner testified he had removed Williams' pistol from his hands, and that three chambers had been discharged, but there was an undischarged chamber between them.

Dr. Maupin testified as to the wound, the ball entering directly at the right nipple and passing through the body.

Dan Brown testified that the men had been playing cards, quarreled over the game and quit. When they went into the bar-room Smith continued to talk about the game and said he never would pay Brown the money he had borrowed, and finally struck Brown, knocking him down. He then struck Williams, and when Brown recovered his feet the shooting was going on.

A Threatened Strike.

By Cable and Associated Press.  
LONDON, October 3.—The directors of the London Gas Company to-day declined to accede to the demands made by the National Gas Workers' Union, that only union men shall be employed. The strikers threaten to strike. A storm has been brewing between the company and the men for months. The number involved is six times larger than the number engaged in any of the previous gas house strikes. The company is making preparation to conduct its business despite any action the men may take. Long sheds have been erected with the works for living quarters for the non-unionists, and hundreds of beds have been provided for their use. The authorities, too, have taken energetic measures to suppress any disorder. Orders have already been issued that 800 soldiers at Chatham be in readiness to proceed at a moment's notice to protect the gas works and those who refuse to join the strike. Each soldier has been served with twenty rounds of ball cartridges.

The strikers declare the report that they intend to go on a strike to force the company to dispend with non-union labor unfounded. Moreover, they declare they made no demands upon the directors, but only suggested it would be to the advantage of each side if only union laborers were employed. Despite the pacific utterances of the men the troops at Chatham continue under arms.

After the Lottery Swindlers.

By Associated Press.  
WASHINGTON, October 3.—Assistant Attorney General Tyner, under direction of the Postmaster General, has prepared for publication in the *Postal Bulletin*, a circular letter to postmasters containing instructions for their guidance in the treatment of "lottery" matters, under the recent anti-Lottery Act. It is very explicit in its instructions. It allows postmasters to examine all unsealed matter, but forbids the tampering with sealed matter.

Bought the Night.

By Cable and Associated Press.  
BERLIN, Oct. 3.—A treaty has been signed by Germany and Zanzibar relative to the coasting trade along the East Coast of Africa. The German Government pays the Sultan of Zanzibar 4,000,000 marks for the concession.

Stanley and Wife at Ostend.

By Cable and Associated Press.  
BRUSSELS, October 3.—Mr. and Mrs. Henry M. Stanley arrived at Ostend to-day. They were received by the king.

## French Bourbons.

By Cable and Associated Press.  
NEW YORK, Oct. 3.—The Germanic has arrived from Liverpool with the Count of Paris, Duke of Orleans and the Prince of Jernville on board.

All the morning the people interested in the arrival of Comte de Paris and party were on the qui vive for news of the Germanic. When signalled, the revenue cutter Cushman went down to meet her, with the following party on board: Gen. Daniel Butterfield, Gen. O. O. Howard, Gen. E. D. Keys, Gen. Fitz John Porter, Gen. H. W. Slocum, W. B. Franklin, Gen. John Newton, J. G. Parke, J. C. Dillon and Gen. O. Bierre. The Germanic was boarded off Staten Island and Comte de Paris and party taken on board. Collector Thart was presented to the Comte and said: "I am instructed by the President and Government to welcome you to these shores and to extend every courtesy."

The Comte replied: "I thank you very much for the honor and I am glad to make another visit to America. I appreciate the great honor conferred upon me by the President."

The Comte greeted Butterfield, Porter and other comrades in the army during the late war. The party consisted of Comte de Paris, Duc d'Orleans, Duc d'Uzes, Marquis de Las-teyrie, Comte d'Hausenville, Colonel de Parveval, Capitaine Morham and Dr. Recanier. They will spend several months in this country.

The Kendalls also came over on the Germanic.

After Train Robbers.

By Associated Press.  
CINCINNATI, Oct. 3.—The Manager of the Adams Express Co. received a letter from the General Manager of the Cincinnati, Sandusky & Cleveland road, saying two of the train robbers were in jail at Belle Fontaine, and the road's detectives were after the third. The express companies' detectives, however, have not confirmed this, and there is nothing to show that proof can be found to convict the men arrested.

Good for Mayhugh.

By Associated Press.  
WASHINGTON, October 3.—The President has appointed Austin J. Braddock, of Rockville, Md., Henry J. Aten, of Hiawatha, Kansas, John S. Mayhugh, of Elko, Nevada, and Miss Helen P. Clark, of Montana, special agents to make allotments of lands in severally, to the Indians, under the provisions of an Act of Congress approved February 8, 1887.

Divorce Case.

By Associated Press.  
CHICAGO, Oct. 3.—Mrs. Emma C. Rathborne, daughter of A. B. Pullman, began suit to-day for divorce from her husband, Richard N. Rathborne, Jr. She alleges habitual drunkenness, personal abuse and unfaithfulness. The parties to the suit occupy high social positions.

Would Not be Reduced.

By Associated Press.  
DAYTON, Tenn., October 3.—The Fitchland and Nelson miners have struck against the reduction in wages recently ordered. Twelve hundred men are involved.

MARRIED.

## 5 O'CLOCK EDITION.

It is rumored that some of the women of the party of Mormon converts who arrived at New York recently have learned that they have been deceived regarding the situation in Utah. Of course they have all been deceived whether they know it or not. Perhaps under ordinary circumstances most of these persons might be desirable immigrants, but as members of an organization hostile to United States law and Government, means should be found to keep them out of our ports. If Mormonism depended upon natural increase and American recruits it would soon weaken. It is such work as has been going on in Utah for the past forty years that the Silver State and Europa Sentinel call "religious liberty," but among most people it is known as bestiality.

The 7,300-ton cruiser, for which bids were opened Wednesday, may be considered a vessel for special service. Her armament is scarcely heavier than that of some of the new cruisers less than one-third of her size, but she will have speed enough to overhaul an Atlantic greyhound, and coal endurance to drive her round the world at a 10-knot speed without recoaling. The Bulletin says: She will be essentially a commerce destroyer rather than a fighting ship, and will be built to resemble as nearly as possible a merchant steamer. A few such vessels would cause Great Britain or any other commercial nation to think twice before subjecting her commerce to their depredations.

The San Francisco Bulletin complains that the silence of the Chief Engineer of the Union Pacific, regarding the railroad service which San Francisco receives, is more significant than a great deal of talk. Southern California and Washington have the benefit of rail competition, while San Francisco, the business center of the Pacific Coast, with the cream of the country lying behind it, cannot attract the attention of one of the various transcontinental lines.

The English delegates to the meeting of the Iron and Steel Institute at New York are astonished at the development of the industry in the United States. It is mostly the result of a quarter of a century of Protective Tariff, and Congress has just confirmed the wisdom of that policy and assured its continuance. Ten years hence English iron-masters will be likely to be still more astonished at American progress.

DR. MCGLYNN is trying to organize a party in New York called the Commonwealth party. His chief aim is to elect members to the Legislature of New York. He denies that he is a socialist; says he never has and never will believe in socialism; but he does believe in State ownership of railroads; because they in the strict sense are merely public highways, and the State should own the public highways.

SOME of the mills up the river are not obeying the law relative to dumping sawdust in the stream. The river was full of dust this side of Truckee this morning and unless the practice is discontinued the guilty parties will find themselves in the meshes of the law and possibly may learn that it would have been much cheaper to have complied with its provisions in the first place.

THE colonization of Swedes on the abandoned farms of Vermont is said to be a success and will be continued. A strain of Scandinavian stock would be a good element there. It is hardy and prolific and suited to the natural conditions of that country.

THE Bulletin says the House did not give Speaker Reed the customary vote of thanks, but that vote down in Maine supplies the omission.

The great acreage of vines surrounding Sebastopol and extending to the Russian River, has been uninjured by the rains.

The Republicans claim to have carried the Idaho election by 2,500. Gains for the Republicans are made all over the new State.

## BETTER THAN RICHES.

A Reputation for Honesty to Be Valued Higher Than a Fat Bank Account.

No man can pursue an honest policy for a long course of years without gaining a reputation more to be valued than great riches. It does one good, heart and soul, to remember that there are men and women like pillars of fire by night who more wavering consciences, men who can reject a bribe with the haughtiness due an insult. The late W. H. Y. Hackett, of Portsmouth, was an exceptionally honest man, one of those lawyers who, like Abraham Lincoln, would not undertake a case which did not seem to him a just one, and where he was known, his influence over a jury was naturally great.

One day, after the termination of a certain case, Mr. Hackett met an old farmer who had been one of the jury, and who felt that too much time had been consumed in reaching a verdict. "The fact is, Squire," he said, "we shouldn't have been so long giving you that case, but somehow or other, there happened to be a couple of men on there who didn't know you at all. Well, the rest of us, we just told 'em what kind of a man we knew Squire Hackett to be. An' we kind of insisted upon it that we could depend exactly on what you said. An' so, after that, we all came round together."

Another lawyer, Hon. William L. Marcy, was one morning talking with a friend when he received a letter, saying in substance: "Enclosed find our check on a New York bank for one thousand dollars, which we send you as a retainer in a suit, the particulars of which we will write you in a few days."

"What shall I do?" asked Mr. Marcy of his friend. "Put it in your pocket and wait for business," was the answer. "No, sir," said the upright lawyer; "it's a bribe."

He thereupon enclosed the check in an envelope together with a note, telling his correspondent that, after he had learned the character of the suit, he would accept the retainer, if the case proved one which he could undertake. The letter was sent by return mail.

Colonel Ludlow, who was chief of the water department of a large city, one day received a call from a wealthy manufacturer, whose establishment had many favors to ask of the department.

Before this man made his requests, he handed the Colonel a fifty-dollar bill, which the Colonel laid upon the desk before him, without saying a word. When his visitor rose to go, however, he inquired:

"Now, my dear sir, what is this for?" holding up the bill.

"Oh, that's to buy cigars for the boys."

"Yes; then I suppose you are fond of the weed?"

"The manufacturer acknowledged that he did like a good cigar."

"Then allow me," said the chief, in his most genial manner, "to insist upon your trying one of these."

He took two cigars from a box, lighted his own with the fifty-dollar bill, and passed the burning paper to his amazed visitor. The man said nothing, but he never made a second attempt to bribe Colonel Ludlow.—Youth's Companion.

## BIRD WANDERERS.

Their Untiring Energy Inspires a Poet to Sing in Their Praise.

Every day we see playing round the ship and skimming up and down the water hollow companies of lovely little terns and sea swallows, the latter no larger than thrushes. These fearless people of the air have not by any means followed us from the land, living, as gulls often will, on the waste thrown from the vessel. They are wary and cautious, and the ocean, who, spying the great steamship from afar, have sailed close up to see if we are a rock or an island, and will then skim away again on their own free and boundless business.

Yonder timid bird, with purple and green plumage, his little breast and neck laced with silver, is distant at this moment one thousand miles from a drop of fresh water, and yet cares no more for that fact than did the Irish squire who lived twelve miles from a lemon. If his wings ever grow weary it is but to settle quietly on the bosom of a great billow and suffer in for a time to catch and roll him amid the hissing spindrift, the milky flying foam and the broken sea lace which forms and gleams and disappears again upon the dark slopes. When he pleases a stroke of the small, red foot and a boat of the wonderful wing launch him off from the jagged edge of his billow, and he flits past us at one hundred knots an hour, laughing steam and canvas to scorn, and stooping for some nameless crag in Labrador or Fundy, or bound, it may be, homeward for some island or marsh of the far-away Irish coast.

Marvelously expressive of power as is our undying engine, which all day and all night throbs and pants and pulses in noisy rhythm under the deck, what a clumsy, imperfect affair it is compared to the dainty plumes and delicate muscles which will carry that pretty, fearless sea swallow back to his roost—Sir Edwin Arnold, in London Telegraph.

The True Gentleman of Leisure. We hear a great deal about gentlemen of leisure. Your true gentleman of leisure is the man who does not have to work for his living; but who, out of the gentleness and chivalry of his nature, delights to live as to be a help and an encouragement, and perchance a burden bearer, for those who are compelled to work, in order to keep alive and maintain their self respect. No man of leisure can maintain his claim to be called a gentleman, when he is merely a loafer, a trifler, or a pleasure seeker. Each use of life makes one ungentle, selfish, base.—Interior.

Prepared by Lightning. A terrific rain and lightning-storm visited the vicinity of Lexington, O. A great deal of damage to crops was done in the towns of Fremont and Speaker. Leonard Pratt, a farmer living about two miles north of Roseburg, while walking along the road near this place, was struck by lightning and instantly killed. A hole was made in his head by lightning, and the strings of his shoes were cut as smooth as though done with a knife. No injury was done to his clothing.

## MISCELLANEOUS.

## The Druggists

In Lowell, Mass., agree in saying that they sell more of Hood's Sarsaparilla than all other blood purifiers. For instance: F. C. GOODALE: I sell more of Hood's Sarsaparilla than all other blood purifiers. A. W. DOWS & CO.: Hood's Sarsaparilla is the lead of all other sarsaparillas.

C. F. BLANCHARD: We sell more of Hood's Sarsaparilla than of any similar. MARSTON & SHAW: With us the sale of Hood's is 10 to 1 of any other kind.

F. A. E. BAILEY & CO.: Hood's Sarsaparilla is one of the best medicines.

CARLSON & HOVET: Hood's Sarsaparilla is one of the best medicines we have. Its sale increases every year.

F. P. MOODY: We sell twice as much of Hood's Sarsaparilla as of anything similar.

C. A. SWAN: Hood's is the most popular sarsaparilla of the day.

THIRTY OTHER druggists speak similarly. This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

Hood's Sarsaparilla Sold by druggists, 25¢ per box. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

**PLATFORM & RESOLUTIONS**

Adopted by the Republican State Convention held at Virginia, Nevada, September 4, 1890:

The record of the Republican party is to be its platform.

No political party in human history has taken such advanced positions for the equality of races, none has so wedded the administration of authority to the needs of business, none has so managed the affairs of State as to encourage the development and settlement of a continent, none has so elevated a nation and so contributed to the comfort and happiness of man, none has so honestly and economically carried on the routine duties of office.

In all things it has been the direct opposite of the Democratic party. Grand in its ambition and impulse, firm and resolute in its consistency, strong in its devotion to principle, it is now, as it has been from its birth, the representative of all that is best and noblest in its own country and the best promise of a better future for the human race.

Its battle for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the national credit, its efforts in behalf of honest financial methods, its honest system and its devotion to popular education have made for it the greatest record of any political organization since the dawn of our country.

The deeds of its heroes are legion, and the deeds of Fremont, Lincoln, Grant,

POLITICAL.  
and Garfield will shine like electric lights on the pages of history.

The Republicans of Nevada, in convention assembled, have heard and indorse the record of the fifty-first Congress, which has made greater advances in correct and needed legislation than any since the war.

The crime of blood-letting, so often resorted to by the Democratic party for the purpose of deflating legislation and blocking the wheels of government, has been done away with by the signing of the McKinley bill, which has secured the off-again and on-again Congressmen are paid by the people for making good laws and not for making bad ones.

It has, by a strict party vote, placed the silver question on a basis that will lead naturally to free coinage and disarm all opposition among financiers.

It has taken up the work of a readjustment of the tariff in a patriotic and businesslike manner, and it has protected the interests of labor and at the same time encouraged capital and enterprise that will furnish it with employment at good wages.

New States, which were denied their rights before, have been admitted to the Union, and the grip of Tammany Hall upon the Presidency broken.

Trusts that grew rank and rancid under a Democratic administration have been broken up and made to obey the laws of honest commerce.

Efforts are being made to prevent or punish frauds and intimidations in elections.

A navy has been provided for a suitable pension granted to prevent suffering among the sick and wounded heroes of the war.

Provision is being made for the reclamation of the arid regions, where the Republic in policy of free homes and free schools can be extended.

Unearned land grants are being restored to the public domain and the land thrown open to settlement, and in all things the pledges of the National platform are being amply redeemed.

We indorse the Administration of President Harrison, and commend his conservative course in striking in contrast with his predecessor in office.

During the former Administration silver and wheat touched the lowest price ever known, and farmers burned their corn for fuel. Trusts were stimulated, finances disarranged, strikes prevailed, the mail service was demoralized, and business foundered. Instead of being encouraged by the methods of the Government, the whole business should be to benefit the country.

To-day silver, wheat, lead, and all the products of labor are rapidly rising, and while the Democratic officials may perhaps be innocent of intentional destruction of our property, they are culpable for the results of blunders as they would be for crimes. Under their rule Chinese and contract labor are kept out of the country, American laborers and mechanics protected, agriculture is encouraged by a department intelligently conducted for its benefit, and the law administered in a wise, firm and patriotic manner. In presenting a ticket to the voters of Nevada, the Republican party pledges its nominees to retrenchment wherever it is possible in county and State expenditures.

We pledge our nominees to a system of State management which will save the water now running to waste, and devise means to secure its use in the irrigation of the fertile lands now lying idle.

We indorse the measure introduced by Senator Stewart, proposing to locate the lands within our lines to the State for the purpose of aiding to improve our water storage and irrigation systems, and we appeal to Congress and the President to grant this much-needed aid.

We indorse the course of our Senators and Representative in Congress, and commend their efforts to establish on a better basis the use of silver as money, and we reaffirm our uncompromising demand for the free coinage of gold and silver, and their equal station in our national currency.

Whereas, The practice of letting mail contracts in this State to non-residents thereof, who seek to obtain such contracts only for the purpose of subverting the same, has resulted in an inferior and impaired mail service;

Resolved, That our delegation in Congress be requested to procure, if possible, the enactment of a law to prevent such abuses in the future.

We are in favor of the improvement of the wages of American labor by restricting immigration from foreign countries, a thorough revision of our naturalization and land laws, the construction of naval and coast defenses, the fostering of free schools and popular education, the enforcement of a free ballot and fair count, the cherishing of the industries of our country, the protection of every citizen in his rights at home and abroad, the fostering of a policy that will extend our commerce, the settling of all foreign complications by arbitration, and liberal appropriations for Congress for the construction of water reservoirs and a system of irrigation.

Resolved, That we are in favor of the Australian system of ballot.

Resolved, That as at the coming election the question as to whether or not a Constitutional Convention will be held is to be submitted to the people, that we earnestly invite a calm and thorough discussion of the question during the campaign.

Resolved, That it is the policy of the Republican party of Nevada to secure safe and possible retrenchments in public affairs, and especially in dispensing with unnecessary offices and useless departments in adjusting salaries upon a basis of services performed, decreasing the per diem and mileage and shortening the session and lessening the number of members of the Legislature, in the reduction of taxation and in consolidating county offices and diminishing county expenses, and to this end we pledge the nominees of this convention, and earnestly ask that the nominees of the several county conventions be likewise obligated.

It has, by a strict party vote, placed the silver question on a basis that will lead naturally to free coinage and disarm all opposition among financiers.

Efforts are being made to prevent or punish frauds and intimidations in elections.

A navy has been provided for a suitable pension granted to prevent suffering among the sick and wounded heroes of the war.

Provision is being made for the reclamation of the arid regions, where the Republic in policy of free homes and free schools can be extended.

Unearned land grants are being restored to the public domain and the land thrown open to settlement, and in all things the pledges of the National platform are being amply redeemed.

**CREeping AND FLYING THINGS.**

A huge lobster was caught by Henry Dunbar in the bay of Penobscot. It was thirty-four inches long and weighed twenty-one pounds. The guests at the Penobscot House had the pleasure of discussing the lobster, which was served soon after the catch.

At Americus, Ga., as the workmen commenced their labors on the roof of the furniture factory, which is three stories high, a huge rattlesnake was discovered coiled on the highest point of the building. The snake was soon killed. Just how he got into his elevated position is not easily understood, but it is possible that he may have been concealed in one of the rolls of roof tin.

A Cocoa (Fla.) citizen witnessed an exciting race between a big rat and a snake of the variety called coachwhip. The man was sitting on his front veranda when his attention was attracted to a swiftly-moving object approaching the house. On closer inspection it proved to be a monster rat pursued by a coachwhip. They dashed under the house, where the rat eluded the snake among some empty orange boxes.

An odd result of rivalry between two tiger snakes is recorded by D. LeSouef, assistant director of the Melbourne Zoological Gardens. One of the snakes was a cobra, the other a tiger snake. Both happened to fasten on the same mouse, one at each end. Neither would give way, and the larger snake not only swallowed the mouse but also the smaller snake. In about ten minutes nothing was seen of the smaller snake but that disappeared next day.

The London Daily News says that at the freight station of Jesson a little wagtail has this year built her nest, choosing a chest in a freight car. The bird deposited four eggs, and remained firmly fixed in that place till she had hatched her young. The car made from six to eight journeys a day, but the bird was in no way incommoded, and remained in full possession of her nest throughout all the bustle of the service. When a stoppage was made at the end of the journey she quietly fed her young.

Of all roosting places imaginable the hands of a clock would seem the last place a bird would seek. But, nevertheless, a feathered warbler of some description took up quarters for the night on the hour hand of the Lima, O., town clock, and was as cozy as a "bug in a rug." It was first noticed about 10:30 o'clock, and as the hands would soon pass, an interested crowd looked on, anxious to know what the bird would do. With that bird knew its business, and when the minute hand drove up in front of it demurely hopped aboard, and taking a seat on the extreme end, rode safely by. The danger over, it resumed the former position on the hour hand.

A horde of noisy sparrows has chosen for a roost a tree in the yard of a citizen of Orange, N. J. For several evenings he has been experimenting with a sparrow disturber, which is at least a partial success. He has tied stout cords to nearly every limb of the tree and gathered the ends at his window. When the sparrows settle down for the night he goes to the window and jerks the string. The sparrows become "rattled" and fly away in the dark. Another citizen of Orange has a fine growth of ivy on the side of his house, and the sparrows have been inhabiting it throughout the year until recently. He has driven them away by going into the attic and sifting Scotch snuff and cayenne pepper down through the vine.
